

RELEASE OF INFORMATION for _____
Child's Name

Dear Parents,

As a provider for speech, language and/or occupational therapy, we feel it is an important aspect of your child's therapy plan that we have contact with his/her teacher through email and/or observations. This allows us to provide intervention that will benefit your child in their daily environments and also the opportunity to advise their teachers/caregivers of methods that may help them make progress in everyday activities. We will confer with you about our observations/consultations via email, phone, or at your next speech/occupational therapy session.
